Upon arrival, I arrived at the clubhouse and spoke to the on duty manger and inquired about issues in the community. I was specifically made aware of parking issues on Point O Woods, Warwick Hills and Waterville Ave. During my patrol I issued multiple parking citations. I patrolled the community to include the guard house, dog-park, tennis courts, newly developed houses and ponds. I also conducted foot patrols of the pavilion, playground, basketball court, soccer field and pool area. I repeated these activities throughout my shift. I did not observe any suspicious activity during this shift.

### **ALL-WEATHER (ASPHALT) PICKLEBALL COURT CONSTRUCTION PROPOSAL**

Welch Tennis Courts, Inc. (hereinafter referred to as the "Contractor") proposes to furnish the labor, materials, equipment, and services necessary to construct two (2) All-Weather Pickleball Courts at Country Walk in Wesley Chapel, Florida. In accordance with, and subject to, the terms, conditions and specifications set forth below, the work is referred to in this proposal as the "Project."

**1. CONSTRUCTION REQUIREMENTS:** The Owner shall be responsible for determining the physical location of the courts, assuring that the plans and the work described in this proposal comply with all applicable zoning requirements and deed restrictions including, but not limited to, all applicable set-back requirements. The Owner shall be solely responsible for the suitability of the project site and the constructability of the Project upon the property.

This proposal includes an allowance for permits, fees, engineering costs and related acquisition costs; costs in excess of this allowance shall be reimbursed by the Owner to the Contractor. The Owner shall be responsible for providing the contractor an onsite dumpster during the Project.

The Contractor shall provide the required contractor licensing to complete the Project, along with general liability and workers' compensation insurance. If a waiver of subrogation is required by the Owner, an additional charge of \$250.00 will be added to the contract price. If the Owner requires bonding in the form of payment and performance bonds or insurance in excess of the limits of liability coverage usually carried by Contractor such additional coverage and bonding will be provided to the Owner at the Contractor's cost.

**2. SITE PREPARATION:** The Contractor shall scalp the existing court pad and dispose of spoils; import up to six (6) inches of clean fill material and prepare the sub-base for installation of new court base material and asphalt. No other site preparation, including clearing, grubbing, tree and stump removal, debris removal and rock removal, is included in the price of this proposal. If large rocks, tree roots, tree stumps, debris or other impediments to routine grading of the site are encountered, the Owner shall be responsible for the cost of removing them. If extra fill material is required to achieve the desired finished elevation of the courts, the costs of furnishing such additional fill material, as is needed, shall be borne by the Owner. Grading shall be done to a tolerance of plus or minus one (1) inch of the final sub-grade elevation. Rate and direction of slope shall be one (1) inch in ten (10) feet all in one plane. A compaction of 95% (Modified Proctor) is required and the soil shall be free of all roots and vegetation.

**3. COURT CONSTRUCTION:** The Contractor shall construct two (2) all-weather pickleball courts in a battery measuring 68 feet by 64 feet.

- a. **Base:** The base shall consist of six (6) inches of base material topped with one and one-half (1½) inches of compacted asphalt hot mix. **Welch Tennis Courts, Inc. cannot guarantee that the asphalt hot mix and/or base material will be free of all impurities (iron, clay balls, wood bits and deleterious material). These materials can be present in the materials received from our suppliers. The presence of such deleterious materials can result in discoloration of the surface and/or raised bumps in the court surface.**

- b. Surface: After the asphalt has properly cured, the Contractor shall apply two (2) filler coats of Deco Acrylic Resurfacer material to the entire court surface. Then two (2) full coats of Deco Color MP on the entire court surface. The courts shall be the Owner's choice of standard colors. No "birdbath" deeper than 1/16 of an inch shall exist after flooding the courts and allowing one hour of time to elapse at a temperature of at least at 70 degrees Fahrenheit (21 degrees Celsius) in sunlight.
- c. Court Completion: Regulation playing lines shall be striped using masking tape and white line paint. Permanent net posts with nets shall be installed.

4. **FENCING:** The Contractor shall provide and install approximately 264 lineal feet of eight-foot high vinyl fencing.
